

21 August 1974

NOTE FOR THE FILE:

I checked with the Senate Appropriations Committee staff today and they confirmed that as re-reported by the Committee and passed by the Senate, H. R. 15572 was changed so as to drop the language of the original section 406 (Proxmire's prohibition against transfer of or expenditure of funds appropriated under this Act by CIA). Old section 407 became new section 406 and old section 408 became new section 407. In other words, the prohibition we objected to was dropped from the bill and the subsequent two sections were renumbered.
